YOUTH LEADERSHIP CAMP

SESSION BREAKDOWN

TRANSFORMING THROUGH THE ARTS ACTIVITIES

Enhance leadership skills through the arts by showcasing your creativity through cooking, dance, music, sports, or creative arts.

LIFE GROUPS

Connect with youth and mentors to gain insight and debrief on real-life situations and topics covered.

THE REAL WORLD TOUR

Take part in a financial literacy simulation where students are given real-life examples of professional salaries. Then, they will budget and make financial decisions based on their projected family income.

This simulation bridges that gap from misconception to understanding through immersion while sensitizing the realities of financial management.

COLLEGE/CAREER DAY

Students must know that they can achieve successful careers after graduating from high school. We invite individuals in non-traditional fields to participate in a college/career fair with information on high institutions of learning and professional jobs in the state of Mississippi.

Students also get information on available internships and summer programs as well as information on financial and academic considerations when making college preparations.
